EARTHING BLOCK FOR PANEL ELEMENTS

Code: 221163/0

Link to the product →

Technical data/items supplied

- PP
- Weight = 0.003 kg/piece

Applications

- For conductive connection of aluminium or steel sheets with the profile frame from 1.5mm - 2.5mm thick, please use our earthing block Part no. 221163/0.
  1 earthing block is sufficient for each surface element. The metal sheet is fixed in the profile frame in combination with our insert seal 2.

Assembly

- Insert socket into profile groove
- Insert bored surface elements
- Screw down the surface elements
- Recommended flat head screw M6x12 **part no.** 212074/0 up to 3 mm disc thickness or M6x16 **part no.** 211246/0 for greater strengths
