KL LR 12 L

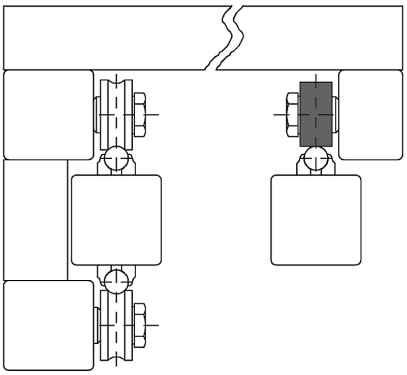

Code: 280005/0

Ball bearing LR 12 L for MiniTec linear guides, suitable for precise guidance and compensation of misalignments in parallel linear systems.

Link to the product →

Technical data/items supplied

- Steel, hardened, polished
- Double-rowangular contact bearing
- Rated load:
  dyn. C = 8.6 kN
  stat. C_0 = 5.1 kN
- Weight = 0.053 kg/piece

Applications

- Construction of MiniTec linear guidance systems with fixed and floating bearing block
- Compensation of distance deviations in parallel linear systems

Assembly

- Fastening kit LRK **part no.** 280021/0 or LRE **part no.** 280022/0
