

## MiniTec Facts & figures

### THE ART OF SIMPLICITY

MiniTec has continuously developed from a specialist for miniature guides continuously to a leading technology company and special machine builder.

Today, 420 experts at 11 locations in Germany, France, the USA, the UK, Spain, Slovenia and China develop customized solutions for our customers. At the same time, more than 60 partners worldwide provide reliable service and competent advice.

Our solutions are just as individual as our customers' requirements. As a full-service manufacturer, we realize intelligent plants and special machines based on our design system for a wide variety of tasks in all major industrial sectors: from automotive, chemical and electrical engineering to energy supply, aerospace, mechanical engineering, metal and pharmaceutical industries. In line with the high technical standards, the motto for our complete solutions is: The Art of Simplicity.

## VEHICLE EQUIPMENT WITH ALUMINUM PROFILES

Living cabins, folding bed, eurobox racks

## LIVING CABINS

AS AN ASSEMBLY KIT FOR SELF-ASSEMBLY ...

... are planned and constructed by our designers according to your specifications and wishes.

The **MiniTec** profile system offers the highest flexibility, so that the construction can be adapted exactly to your vehicle. We are happy to implement special requests if possible.

The frame construction of the cabin consists of **MiniTec** aluminum profiles and the specially developed **corner connectors for 90° and 45° connections**.

For the design of the outer skin and insulation there are several options, depending on the priorities set by the customer. An outer skin made of aluminum sheet can be supplied by us.

If the planning ultimately corresponds to your ideas and conceptions, you will receive your **living cabin as an assembly kit for self-assembly**.

We will be happy to create an individual offer for you. Please contact us!

## FOLDING BED

AS BASIC MODULE OR WITH EXTENSIONS

AVAILABLE AS ASSEMBLY KIT FOR SELF-ASSEMBLY OR FULLY ASSEMBLED

The **folding bed** consists of a stable frame made of **MiniTec** aluminum profiles. During the day it serves as a practical bench, in the evening it can be folded out into a bed in just five seconds. The seat cushion automatically converts into a comfortable mattress. The folding bed fits in all standard VW-bus-sized vans and is available either as a basic module or with a eurobox pull-out (panel set optional). On request, the bed can also be configured to customer specifications in terms of length, height and width.

	Item number
<b>FOLDING BED BASIC MODUL</b>	29.2300/05
<b>EUROBOX PULL-OUT</b>	29.2310/05
<b>MATTRESS INCL. COVER</b>	29.2315/05
<b>SET OF PANELS WITHOUT EURO BOX PULL OUT</b>	29.2325/05
<b>SET OF PANELS WITH EURO BOX PULL OUT</b>	29.2320/05

The **eurobox pull-out** and the matching **birch wood panels** are both optionally available. The pull-out makes optimum use of the storage space under the sitting or lying surface. The euroboxes can be removed either via the pull-out or from the side of the interior.

	Product dimensions folding bed in mm (length x width x height)
as a bench	L 2027 x W 775 x H 980 (incl. mattress)
as bed	L 2027 x W 1200 x H ca. 520
lying surface	L 2000 x W 1200
eurobox pull-out	L 1829 (for 3 boxes 600 x 400 x 220)

## EUROBOX RACKS

IN MANY VARIANTS

AVAILABLE AS ASSEMBLY KIT FOR SELF-ASSEMBLY OR FULLY ASSEMBLED

The **eurobox rack** is available in many variants and is supplied either as an assembly kit for self-assembly or fully assembled. Sliding rails are embedded in the profile grooves for smooth guidance of the euroboxes. When pushed in, the euroboxes lock securely into place. This prevents any slipping or noise during travel. A matching set of **panels** made of oiled birch wood multiplex boards with milled handle and chamfered edges is optionally available, as well as a matching **table top**. The construction made of **MiniTec** aluminum profiles can be extended individually. Other variants are available on request.

	Product dimensions without table top in mm (length x width x height)	Item number
