SEALING PLATE 45 WITH DUAL SLOT

Code: 241118/0

Sealing plate 45 with dual slot for effective sealing of hollow chambers and protection of screw connections in aluminum profiles.

Link to the product →

Technical data/items supplied

- made of silicone, transparent
- Weight = 0.001 kg/piece

Applications

- For end face sealing of the hollow chambers when assembled with power-lock fastener
- For sealing a screw connection between two profiles, as shown in the figure.

Assembly

- Use fixing material supplied to fix to the end face of the profile
- Is placed between the profiles, which are then screwed together
