SHAFT FIXATION H

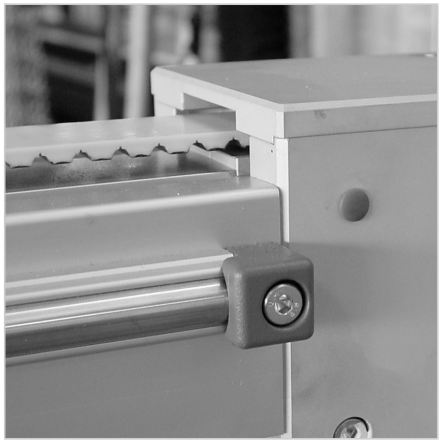

Code: 280053/0

Shaft retention element in linear guides for safe and reliable motion under dynamic loads.

Link to the product →

Technical data/items supplied

- Aluminium, Pressure die-casting, powder-coated, grey
- With fixing material, stainless steel
- Weight = 0.030 kg/piece

Applications

- Axial fastening of shafts in dynamically stressed linear guides

Assembly

- Fasten the retention device at both shaft ends with fastening kit
- No machining required
- The shaft carrier profile and shafts must be 15 mm shorter than the carrier profile
